London CBC 2016

last reported	species	compared to last 10 years
2014	Cackling Goose	unusual species
	Canada Goose	
	Mute Swan	
	Wood Duck	rare species in normal years
	Gadwall	rare species in normal years
	American Black Duck	
	Mallard	
	Redhead	rare species in normal years
	Bufflehead	 more than average but stable with last few years
	Common Goldeneye	 higher than average
	Hooded Merganser	 a bit lower than average
	Common Merganser	
	Red-breasted Merganser	 rare species in normal years
	Ruddy Duck	rare species in normal years
	duck species	
	Wild Turkey	 still down from average
	Pied-billed Grebe	 rare species in normal years
	Great Blue Heron	 numbers still down from average
2010	Osprey	only 3rd time
	Bald Eagle	 new high
	adjusted adult	
	adjusted imm	
	Northern Harrier	 lower than average but similar to last few years
	Sharp-shinned Hawk	 lower than average but similar to last few years
	Cooper's Hawk	 lower than average continuing downward trend
	Red-tailed Hawk	 lower than average
	Rough-legged Hawk	 lower than average but closer to that

	American Kestrel		lower than average
	Merlin		becoming more regular
	Peregrine		two adults and perhaps more
	American Coot		unusual species in normal years
	Ring-billed Gull		
	Herring Gull		much lower than average
	gull sp.		
	Rock Dove		
	Mourning Dove		back to more normal numbers
	Eastern Screech Owl		few parties owling and poor weather
	Great Horned Owl		few parties owling and poor weather
	Belted Kingfisher		numbers rebounded
2013	Red-headed Woodpecker		rarely seen species
	Red-bellied Woodpecker		new high
2013	Yellow-bellied Sapsucker		unusual species
	Downy Woodpecker		rebounded numbers
	Hairy Woodpecker		rebounded numbers
	Northern Flicker		fewer than average
	Pileated Woodpecker		new high
	Northern Shrike		unusual species but less than average
	Blue Jay		higher than average
	American Crow		
	Horned Lark		higher than average but variable
	Black-capped Chickadee		close to average this year
	Tufted Titmouse		unusual species
	Red-breasted Nuthatch		fewer than average but variable
	White-breasted Nuthatch		higher than average
	Brown Creeper		numbers down for variable species
	Carolina Wren		numbers rebounded
	Winter Wren		more normal numbers but variable species
	Golden-crowned Kinglet		back to average numbers
	Ruby-crowned Kinglet		unusual species
	Eastern Bluebird		unusual species
	American Robin		much higher than average
	European Starling		numbers lower than average
	Cedar Waxwing		well over average but variable species

	American Tree Sparrow		numbers closer to average but still down
2009	Chipping Sparrow		rarely seen species
	Song Sparrow	↑	rebounded numbers
2010	Fox Sparrow		rarely seen species at tie for record numbers
	Swamp Sparrow	↓	fewer than average but variable species
	White-throated Sparrow	↓	fewer than average but variable species
	Dark-eyed Junco	↑	numbers rebounded to more than average
	Snow Bunting	↓	fewer than average but variable species
	Northern Cardinal	↑	numbers rebounded
	Red-winged Blackbird		unusual species
	Purple Finch	↑	more than average for variable species
	House Finch	↑	numbers rebounded but still less than average
	Pine Siskin		numbers low but variable species
	American Goldfinch	↑	numbers up but less than average still
	House Sparrow	↑	numbers up but less than average still
	individuals	↓	less than average; weather conditions and fewer parties
	number of species	↓	less than average; weather conditions and fewer parties

Trends possible

Birds that generally migrate did so. Some species that linger were able to survive. Eg a few blackbirds, Harsh conditions just prior to the Count made walking difficult. Some party areas not covered well and others cancelled.

Some parties not available to count.

Lingering birds found in groups or coming to feeders for food due to harsh conditions and deep snow

Some of those lingering species were forced out by weather. Sparrows, hawks..

Few winter birds have come south. Eg. Redpolls, siskins
