

## **LINKS to Some Canadian Swift-related Websites**

Prepared by Winifred Wake, Chimney Swift Liaison for Nature London, May 1, 2021

**Ontario SwiftWatch** (Birds Canada): for information on swifts and swift monitoring.

<https://www.birdscanada.org/bird-science/aerial-insectivores/>

**Manitoba Chimney Swift Initiative:** for all things swift in Manitoba.

[www.mbchimneyswift.ca](http://www.mbchimneyswift.ca)

**Native plant websites:** Encourage native insects by growing native plants in your yard (with luck, some of these insects may waft upwards to become food for swifts). For recommended species to grow and where to obtain them:

**Upper Thames River Conservation Authority**

<http://thamesriver.on.ca/watershed-health/native-species/recommended-trees-and-shrubs/>

**Carolinian Canada**

<https://inthezonegardens.ca/>
