

CITY OF LONDON ESA OBSERVATION FORM

The City of London, in partnership with the Upper Thames River Conservation Authority, manages seven different environmentally significant areas (ESAs) in the City. This form is provided so that members of the public may record observations arising from time spent in ESAs. The City of London will review the information received and take steps to incorporate your suggestions into our ESA Management efforts, subject to existing policies, approved conservation master plans, budget and environmental considerations. Please respect the natural environment during your visit, be aware of permitted and prohibited activities defined on the signs at the trail head and stay on the managed trail system.

OBSERVATIONS PROVIDED BY:

CONTACT INFORMATION:

PLEASE IDENTIFY THE ENVIRONMENTALLY SIGNIFICANT AREA YOU ARE PROVIDING COMMENTS ON:

Meadowlily Woods
 Westminster Ponds
 Warbler Woods
