

Status Colour Legend		Migrant -almost all migrate through completely, some linger occasionally as non-breeders or are dispersed here after nesting. Very occasionally breed in small numbers
		Winter -mainly migrate to winter here, may go farther south and migrate back through. A scant few may remain to nest.
		Migrant and Winter -migrate into here and may linger into winter as possible. Scant few may nest.
		Nester-nest here and elsewhere in SW Ontario, and migrate through but some rarely, if ever, linger
		Hardy -almost resident, widespread, may nest here and/or elsewhere in Ontario, can linger here as non-breeders or in winter
		Resident -year round, some breed elsewhere and migrate into and through this area

Status codes are chances of seeing species on outing in season	c=commonly seen on almost every outing	u=uncommon in habitat	rare=rarely seen in habitat	o=occasional in habitat	a=accidental occurrence
---	--	-----------------------	-----------------------------	-------------------------	-------------------------

Seasonal Codes	w= winter -Jan, Feb, Dec	m=migrant period for species	r=resident species	S=Spring -Mar thru May	F=Fall -Aug through Nov (July for some species)
	i=irruptive species so variable numbers		*=possible breeding species		s=summer- June, July (breeding period)

Breeding Codes	Observed	Probable Breeding		Confirmed Breeding	
?- unknown breeding status no dates in breeding period but could breed here from past info	x-not likely breeding	P=pair in habitat	T-Territorial males present for > week	FY-fledged young	AE=adult entering a nest site
				NY-nest with young
